Source key

■	Confirmed — position and net points verified from 49er.org official results
■	Narrative reference — position mentioned in class/RYA race reports but net points not recorded
■	Entry list only — crew confirmed from Sail World pre-event entry list; final position within fleet estimated from ordering

Notes: No Sailwave file or full scoring sheet has been found online for this event. Gold fleet positions 1–10 with net points are from the 49er.org results page. Positions 11–18 are derived from named references in RYA and class race reports. Silver fleet partial order: Couvreur/Glass silver-12th, Freitas/McCormack silver-18th, Pasquali/Giffen silver-24th (McKee Brothers Report). Crew pairings for all 43 entries sourced from Sail World pre-event entry list (Jun 2002). Entry list ordering for positions 19–43 is approximate; silver fleet entries not individually placed. Sundby/Bovim (NOR) were DSQ'd from first 4 qualifying races after weight infringement — likely finished outside top 25. Olympic qualification (top 6 nations): ESP, GBR, UKR, ITA, DEN, NED.
