Check-in / check-out procedure

When a boat leaves the harbour to compete in the 2016 Junior World Championships 49er & 49er FX it has to check out. Near the slipway will be a wooden board with labels for each boat. When going afloat the crew of the boat has to take the label according to their sailnumber with them on the water.

When a boat returns ashore, the crew will put the label back on the board as soon as possible and latest before end of protest time.

The race management team will be out on the water until all labels are back. The standard penalty for breaking this procedure will be 2 points (SI 2.6).

Signed
