NOTICE OF

ANNUAL GENERAL MEETING

OF THE

INTERNATIONAL 49er CLASS ASSOCIATION

In accordance with the International 49er Class Association Constitution, this Notice, dated November 2, 2019, gives the required 28 days' notice of the Annual General Meeting of the Class.

The meeting will be held on November 30, 2019 at 1900 hrs Auckland Time.

The meeting shall be at the Royal Akarana Yacht Club and only members of the World Council shall be entitled to vote.

Resolutions

There are 4 Ordinary Resolutions, 4 Special Resolutions and 2 Class Policy Changes.

The Special Resolutions deal with Class Rule Changes and, for clarity, under the Class Constitution, a 2/3 majority is required to pass.

Ordinary Resolutions and Class Policy Changes require a simple majority to pass.

Marcus Spillane

President

International 49er Class Association

Ordinary Resolution 1: To elect Griselda Khng (SGP) as a Class Vice President – 49erFX

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

To elect Griselda Khng (SIN) as a Class Vice President - 49erFX for a further 2-year term from this 2019 AGM

REASONS

Griselda has served the class well and is willing to continue in this capacity.

QUESTION:

Ordinary Resolution 2: To elect Joel Turner (AUS) as a Class Vice President – 49er

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

To elect Joel Turner (AUS) as a Class Vice President - 49er for a further 2-year term from this 2019 AGM

REASONS

Joel has served the class well and is willing to continue in this capacity.

QUESTION:

Ordinary Resolution 3: To elect Barry Johnson (AUS) as Class Chief Measurer

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

To elect Barry Johnson (AUS) as Class Chief Measurer for a 2-year term from this 2019 AGM.

REASONS

Barry has served the class well and is willing to continue in this capacity.

QUESTION:

Ordinary Resolution 4: To elect David Campbell James (GBR) as Class Chief Financial Officer

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

To elect David Campbell James (GBR) as Class Chief Financial Officer for a 2-year term from this 2019 AGM.

REASONS

David has served the class well and is willing to continue in this capacity.

QUESTION:

Special Resolution 1: Allowing Prototype Equipment to Race

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

To allow testing of the new specification equipment for 49er and 49erFX without it interfering with elite racing.

RESOLUTION

To add the section C3.3 (a) Limitations as follows:

Off-Specification equipment can be issued an official 49er tag of bright red coloring to known as the 'Red Label' if both the 49er Technical Committee and the World Sailing Technical Officer agree to allow that specific prototype or prototype series.

A team racing with a 'red labelled' piece of equipment shall not be allowed to compete at:

- the Olympic games
- the Olympic Test Event(s)
- Regional Games

OR in a Gold Fleet at:

- World Championship
- Continental Championship
- Any regatta that is an Olympic qualifier

Any team qualifying for gold fleet at a Class World Championship or Class Continental Championship with this equipment will be assigned to the silver fleet and scored as a silver fleet competitor.

REASONS

The 49er Class, Technical Committee, Builders, and/or copywrite holder may wish to update the 49er and 49erFX specification from time to time. Allowing out of specification equipment to race can be a good way testing that equipment in real world conditions.

The red labelling will mark the off-specification equipment obviously and for all to see. The red labelled equipment becomes official equipment of the 49er Class, but with additional restrictions on what regattas it can be used for.

QUESTION:

Special Resolution 2: Adding Leech Battens to Mainsail

Submitted by Iago Marra (ESP), Representative, Spanish Sailing Team

PROPOSAL

To allow teams to add leech battens to their mainsails if they wish.

RESOLUTION

To add a new section G.5 MODIFICATIONS as follows:

Up to 2 battens made of solid fibreglass may be added to the mainsail of no greater than 200mm by 10mm 3mm in dimension and affixed within 50mm of the leech using black dacron tape.

REASONS

Mainsails can flap in high winds or as they get older and adding leech battens can help extend the life of mainsails. This will save sailors money and is better for the environment. The small leech battens are all that is necessary to solve the majority of issues reported.

QUESTION:

Special Resolution 3: Adding a Crew Weight Limit to the 49erFX

Submitted by Marcus Spillane (President) on behalf of the executive.

PROPOSAL

To insert into the Class Rules a crew weight limit for racing in the 49erFX that will apply to regattas after September 1, 2020.

RESOLUTION

To add C.3.1 (c) CREW LIMITATIONS as follows:

The total weight of the crew, dressed in undergarments, must not exceed 132 KG during the registration period prior to racing. The total weight of the crew, dressed in undergarments, must not exceed 134 KG during the racing period. The maximum weights or exclusion of this rule may be amended by the **Notice** of **Race**.

REASONS

The 49erFX was aimed at a target weight of 125-130 KG. As we approach the end of the 2nd quadrennial, the optimum weight of the top teams has gradually increased. By adding a weight limit to the class, it gives teams entering the class transparency and stability when assessing their ability and willingness to meet the optimum weight for the fleet. Weight limits are common in competitive sailing classes, including the America's Cup, SailGP, and many other classes.

By putting this rule in place now but applying it to the racing post Tokyo, we provide transparency and stability for teams looking at their long-term plans.

By putting the weight limit just above the target weight for the class, we allow for a broad range of women to race the 49erFX, and teams racing should feel competitive in the target weight range.

By applying weight limits throughout the regatta, teams will be forced to maintain their body weights below the limits, so that attaining those weights is not accomplished by a huge drop in weight followed by a stable racing weight significantly above the weight rule. In having the racing weight slightly higher than the pre-regatta weight, teams should not need to focus extensively on their weight during the racing period.

This rule applies only to the 49erFX so that the 49erFX fleet heights and weights can sit comfortably within the average ranges of female sizes, and not only toward the taller and heavier women. The current optimum weight of the 49er fleet is well inside the centre of the bell curve of male heights and weights and therefore intervention by rule is not necessary.

It is a general principle of yacht design, that the optimum weight of a boat is largely dictated by the hull volume. With the 49er hull was deigned for crews significantly heavier than typical 49erFX sailors, it is unlikely that heavier sailors would ever meet the 'maximum' weight, and that weight would be significantly higher than average female demographics.

QUESTION:

Special Resolution 4: Deciding which Weight Limit to Use in the 49erFX

Submitted by Marcus Spillane (President) on behalf of the 49er Class Executive

PROPOSAL

If proposal 3 passes, to consider other weight limits and frequency of measurements to further move to the middle of female demography.

RESOLUTION

To add C.3.1 (c) CREW LIMITATIONS as follows:

a) The total weight of the crew, dressed in undergarments, must not exceed 130 KG during the registration period prior to racing. The total weight of the crew, dressed in undergarments, must not exceed 132 KG during the racing period.

OR

b) The total weight of the crew, dressed in undergarments, must not exceed 128 KG during the registration period prior to racing.

REASONS

With this entire question being new, it was not known what specific weights the fleet would be comfortable with, so this resolution offers two other options.

The first option is to reduce the weights by 2kg to further move the weight into the middle of female demography.

The second option is to simply the regatta processes, by weighting only one time during a regatta. The weight is further reduced in anticipation of teams dipping their weights to a greater extent before settling back to their normally higher weight.

OUESTION:

Do you wish to approve option a?

Do you wish to approve option b?

Policy Proposal 1: Date of Presidential Transition

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

That the 2020 AGM be at a suitable date just prior to the 2020 European Championship in Garda, Italy. At this AGM a new President will be elected, however our Constitution does not cover the date of transition between election and taking office. This proposal is to have the date of Transition to the new President be no later than November 15, 2020 after the 2020 World Sailing Annual Conference.

REASONS

The class will benefit from having a period of time whereby the new President can get up to speed with Class issues under the guidance of the existing President. Then the transition to office can be as late as November 15, 2020, a date which immediately follows the 2020 World Sailing Conference so that there is plenty of time for the President to be ready for the politics at World Sailing.

QUESTION:

Do you wish to approve this policy? Yes / NO

Policy Resolution 2: Allowing Females to Race in the 49er Fleet at Class Regattas

Submitted by Marcus Spillane, President, International 49er Class Association

PROPOSAL

To make all Class Controlled 49er racing open to all genders; namely the World Championships (excluding the Sailing World Championships), Junior Worlds, and Continental Championships. Any Olympic Qualifier or event controlled by World Sailing may be excluded.

POLICY

Class championships under the control of the International 49er Class Association, including the World Championships (excluding the Sailing World Championships), Junior World Championships, and Continental Championships should specify that the 49er Event will be Open to all genders.

REASONS

Based on a female entry to the 2020 49er World Championship and a previous legal case in Australia, the class has conducted a legal review of our position as it relates to restricting genders. In recent years we have used the phrase 'Olympic Gender requirements will apply' to define who can participate. The legal review has revealed that there is no such thing as the Olympic Gender Requirements, and further, that it is illegal (in certain jurisdictions) to restrict women from competing in a men's event, even if there is an equivalent women's event. However, it did reinforce it is legal (in certain jurisdictions) to restrict men from racing in a women's event. As such, we should adopt eligibility requirements stating that the 49er is an open regatta and the 49erFX is a female only regatta.

"Failure to allow females to try out for or compete on male teams or to compete in male competitions would be considered unequal treatment and would amount to discrimination on the basis of sex. Further, refusing such opportunities would amount to denying females the opportunity to be judged on their personal merits, which constitutes differential treatment, and, by definition, discrimination."

This is based on Canadian Law only though there appears to be some similar guidance in other jurisdictions.

From 1997-2012, the 49er was an Open event. In 2013, the 49erFX and Nacra 17 were brought into the games to provide high performance sailing opportunities specifically for women, with the Women's only 49erFX and the Mixed Nacra 17. At the same time, the 49er was moved by World Sailing to be Men only, and the Class has never debated the topic.

The move to bring in the women's skiff and mixed Nacra 17 was a tacit admission that open sailing competitions were not providing sufficient, equal, and attractive opportunities for female sailors. This initiative has largely worked, and both classes are well supported and both classes have brought far greater opportunities to race high performance boats for females. In 2015 the same logic was applied to the youth 29er events, which has moved from being Open, with very few female sailors, to splitting into separate fleets, and there are now strong girl fleets in the 29er at the Youth Worlds.

However, in creating these two events, we also stripped the opportunity for women to sail the 49er. There was no obvious reason to make a change to the 49er Event as open. While a few women did take the option to race in the 49er (or Tornado), the quantity hardly impacted the opportunity for men to sail the

49er. Women do not seem to possess any sort of competitive advantage over men with respect to sailing 49er.

Some might argue that equality means a hard line should be placed around genders. *If there is a women's boat, then there must be a man's boat.* But this logic ignores the true reasoning behind the creation of female only and mixed events. The history of our sport suggests women needed gender specific events in order to be sufficiently attracted to these high-performance classes to dedicate their lives to our sport. But men do not need women to be excluded from 49er to be willing to make a similar effort.

It has been found, legally, in certain jurisdictions, that the concept of equal opportunity includes the opportunity to participate and compete at one's own level. This means that simply making both male and female competitions available and preventing females from competing with males simply because a female competitive opportunity is available would be insufficient to satisfy this approach to the concept of equal opportunity.

Another way to look at equality is the opportunities available to Olympic sailors, retired and active from Olympic duty. Currently, dozens of 49er and Nacra 17 sailors are getting professional jobs in the Americas Cup, SailGP, TP52, GC32, and VOR. The only female sailors getting professional jobs in these boats were the mandated ones in VOR and Marie Riou, who was recruited with her regular helm, Billy Besson. It could be argued that female sailors might gain additional respect and reputation sufficient to get a professional jobs through appearances or performances with or against male competition.

The 49er Class has had a few requests to have female participants in recent years – we should aim to make them feel welcome.

Our classes should aim be an enabling vehicle for as many opportunities people want to take as possible and restrict only when necessary. Having the 49erFX join the Olympic program has been excellent with so many more opportunities created for women to sail. Let's re-extend that spirit to the 49er and mandate that all 49er Class run regattas should be open to all genders.
