

## Camera Dummy Weights on 49er

Dummy Weights are mounted to the boom by strapping lead bag around boom with velcro strap in front of mainsheet-block fitting. The Cameras will be taped on the same position by the SailTracks Broadcasting Team.

Camera or Dummy 275g

## Camera Dummy Weights on Nacra

Weights are mounted to the front of the bowsprit by wrapping velcro strap around tube. Please fix with tape to avoid it moving.

The Camera will be installed by the SailTracks Team at the same position.

Camera or Dummy 395g
